Matanzas San Carlos.
Havana - Cuba

To the Rt. Rev.—
William R. Whittingham D.D.
Bishop.—

Rt. Rev. & Dear Father:—

I reached here on Tuesday the 3rd inst. - and found that my work had not been in vain—

Our hospital is in good condition and all we need now is a Chaplain for it— I shall begin work again at Matanzas to-morrow.—

I have also made arrangements to extend our work to the City of Cardenas - and the large Saloon of the German Consulate has been offered me for the use of the Church— This

extends our work- 120 Miles from Havana - I am about to make arrangements to have Lay Readers of the Service at Caibarien - a Distance of more than a days journey from here I have met a Gentleman who has been in the habit of doing this kind of work in the United States - and I hope to make use of him - And may be compelled to call on You to furnish me with a license for him - if he has not one already -

Our work now extends to nearly one half the length of the Island - and I am all alone

Surely - The Church Alumni take hold of this work promptly - And send me the necessary help -

I cannot write you a long letter to-day - because I am very busy - and in a great hurry to get my letters ready before the mail Closes - I hope soon - however - to write more at length and to make some suggestions about our work - I found out another Case of Concubinage on Thursday and married the Couple - at the house of the Vice Consul Geis of Germany - We have some Yellow Fever here - I buried a Swiss Gentleman on Each Eight - other Sick of the fever Early yesterday Morning - We have only been on this island three weeks -

I must now say Good bye - Give my love please
to Mrs. Whitney ham - And all the Members of your
family - Remain - Sincerely, & faithfully Yr Bro in Christ.

Edward Kenney
